Responding Together

## Louisville Metro Community Based Emergency Response To Terrorism and Major Incidents

Provided by  
The Jefferson County Health Department  
And the Louisville Crisis Group  
under contract with  
The Centers for Disease Control & Prevention

Public Health Departments are vital to preparing for and managing emergency response.

They are first responder partners with  
Police, Fire, Hospitals, EMS, FBI, EMA and others.  
Review the responsibilities and of all agencies during 3.5 days  
of instruction using the Louisville Model.

The course is free. Participants are responsible for travel and per diem only.

For information  
(502) 574-6859 or <http://health.loukymetro.org>
